Natural Oil Based Grease

Description

MOLYSLIP RRG is a high-quality lubricating grease manufactured from best quality vegetable oil, thickened with non-soap bentonite clays, together with corrosion and oxidation inhibitors.

MOLYSLIP RRG is intended for use where compatibility with seals and resistance to hydrocarbons is required. The product has excellent mechanical stability and is compatible with natural and synthetic rubbers, thus eliminating swelling of rubbers. It is also resistant to hydrocarbons and most chemicals.

MOLYSLIP RRG is designed for use on automotive brake assemblies, rubber components, and hydraulic components. As a benefit of its resistance to lubricating oil, it is suitable for gland packing and seals.

Features and benefits

- Mineral Oil and Hydrocarbon Free
- Resistant to Hydrocarbons
- Wide Operating Temperature Range
- Compatible with Natural and Synthetic Rubbers

Packaging

450g tin.

Instructions for use

MOLYSLIP RRG should be used as supplied. Ensure surfaces are clean and dry before application. Apply thin even coating.

Technical data (typical values)

Property	Test method	Result
Appearance	TM01	Smooth, bright red paste
Thickening Agent	-	Modified Montmorillonite
NLGI Grease consistency	-	NLGI 2-3
Worked Penetration	IP50	230 – 270 mm-10
Drop Point	IP31	None, infusible
Base	TM27	Refined Vegetable Oil
Operating Temperature Range		-40 - + 120°C

Storage

Store MOLYSLIP RRG out of direct sunlight.

Storage temperature should be controlled to between 5°C and 35°C.
