

Technical data Combat

MOLYSLIP®

Multi-functional, water displacing rust preventative and lubricant

Description

MOLYSLIP COMBAT spray is an advanced water-displacing fluid which deposits a protective and lubricating film. The petroleum base is reinforced with sophisticated performance additives that bind to metal surfaces protecting them from friction, wear and atmospheric corrosion.

COMBAT is designed as a true multi-purpose product that will displace moisture from surfaces, lubricate, protect from corrosion and act as a penetrating and releasing agent for sized and corroded parts. COMBAT is free from silicones, is non-staining and suitable for use on most metals. The product is compatible with most commonly encountered plastics and rubbers.

Features and benefits

- Actively displaces moisture from surfaces
- Effective protection against corrosion
- Excellent penetration and release properties
- All-round multi-purpose lubricant

Packaging

400ml aerosol / 5 Litre / 205 Litre

Technical data Combat

MOLYSLIP®

Instructions for use

Aerosol

Shake well, hold can upright and spray from a distance of approximately 15-30cm.

Bulk Fluid

Supplied ready for use for spray, dip or brush application.

Technical data (typical values)

| Property | Test method | Result |
|-----------------------------|-------------|-------------------|
| Appearance | - | Pale brown liquid |
| Film thickness | - | 0.005µ |
| Operating temperature range | - | -50°C to + 140°C |

Storage

Store MOLYSLIP COMBAT spray of direct sunlight.

Storage temperature should be controlled to between 5°C and 35°C.
