

SOL CLEAN

CLEANER FOR PHOTOVOLTAIC AND
THERMAL SOLAR PANELS

READY TO USE

EFFECTIVE AGAINST DIRT AND SMOG

IMPROVES SYSTEMS PERFORMANCE

CHARACTERISTICS

Sol Clean is an innovative detergent specifically formulated for cleaning photovoltaic and thermal solar panels. It restores optimal energy production by easily removing dirt, dust, smog, pollen, limescale, soot and excrement which settle on the surfaces of the panels over time, significantly reducing their performance. Thanks to an effective antistatic action, **Sol Clean** slows down the redeposition of dirt and polluting agents, ensuring longer intervals between cleaning interventions. It is not aggressive and does not damage seals, linings and metal parts. **Sol Clean** is not classified as hazardous under the CLP Regulation.

FIELD OF USE

Sol Clean is the perfect solution for the regular cleaning of all types of photovoltaic panels, both for large industrial installations and for private use, whether ground-mounted or roof-mounted. Suitable also for the cleaning of solar thermal panels.

TECHNICAL DATA

Physical State	Liquid
Solvent	Water
Colour	Straw yellow - Transparent
pH	11,4
Density	0,999 kg/l

HOW TO USE

APPLICATION

Sol Clean is ready to use. Spray the solution evenly onto the panels and leave to act briefly to allow the product to dissolve dirt. In case of particularly dirty panels, use a washing brush, applying a light pressure, or rub gently with a damp cloth. Depending on the kind of dirt, rinse, also by a pressure washer, using the diluted product or water, and leave to dry.

TOOL CLEANING

Clean tools with water.

SAFETY FOR THE OPERATOR AND THE ENVIRONMENT

Use protective personal equipment, gloves and safety goggles. Avoid contact with eyes and skin. Do not release into the environment. Store in tightly closed containers, out of reach of children. For further information, see the Safety Data Sheet available on request.

STORAGE

WHAREHOUSING

Store indoors, in a cool and dry place away from direct sunlight, at a temperature between +5 and +35°C. Avoid freezing.

FORMATS

Aerosol Bottle 750 ml

Packaging: 12 pcs

Code: 1051 750

EAN 8056736860694

Rev. 1 - 23 April 2024

WARNINGS

The instructions and information contained in this data sheet are provided in good faith and correspond to our latest technical and application knowledge, provided the product is properly stored and handled as well as used under normal conditions and observing CAMP recommendations.

Considering the extreme variability of materials, substrates and actual use conditions by the user, such information and instructions are provided by CAMP without any liability or guarantee, implicit or explicit. The user must evaluate the suitability of the product for the specific application and related purpose and, in any case, assumes all responsibility for its use. It should be noted that CAMP reserves the right to change the formulation and properties of the product and that the content of this sheet may be subject to integrations and/or changes over time. Users should always refer to the latest version of the product data sheet, available on request or on the website www.campitalia.it.
